Class Descriptions

All Levels Power Vinyasa

This is a strong class that is designed to move your body and your soul. It is suitable for all practitioners, and each student is empowered to modify for their skill level. Mindful of the importance of transitions, we will move from pose to pose with a focus on connecting the breath to the movement. Be prepared to build heat, get a little sweaty, connect to your breath, and leave feeling energized.

Bikram Fusion

This class is an integration of Bikram and Vinyasa yoga. Bikram Fusion incorporates the 26 postures of Bikram yoga into a Vinyasa Flow. The room heated to 95 degrees with 40 % humidity. Hydration is the key to a successful practice so please hydrate prior to class.

Candlelight Yin

Yin Yoga is healing and meditative. Practice surrender and receptivity. Slow it down for a nourishing and spacious practice. The postures are primarily seated or lying down, sometimes with support. Poses are held for at least 3 minutes to allow the muscles to relax and to work connective tissues in the body as well as balance the nervous system. By strengthening and lengthening connective tissues we are creating greater range of motion in the joints, increase overall flexibility and build stronger bones and a healthy spine. This practice teaches us to be present, patient, calm and introspective allowing us to find balance in our active, busy and at times stressful lifestyle. Open to all levels, and a great compliment to a more active practice. Beginners welcome.

Flow Your Own Way

This warm candlelit all-levels vinyasa flow is the perfect way to wind down after a long day. You can Flow Your Own Way with plenty of options to turn the level up or down to meet your needs. Melt into gooey stretches and an extended savasana to relax into the evening.

Free your Back Friday

As modern humans, we spend a lot of our week hunching over computers, steering wheels, housework-- you name it. This Friday morning all-level vinyasa flow is a reset for your back after a work week of hunching. The goal will be to create space and stabilize your spine through a focus on posture, core work, twists and heart openers.

Gentle Hatha Foundations

This is a gentle, beginners asana (posture) and pranayama (breathing) practice. Traditional Hatha postures, sequencing and breathing techniques are taught. We move through the asana slowly with awareness of breath, engagement and alignment. Postures are broken down in a fun and accessible way, giving you the confidence to take different styles of classes. Great for those who are completely new to yoga or those who have an existing practice but prefer a relaxed passed with detailed cueing.
