Our Flow classes are designed to cultivate heat in the body with creative sequences involving sun salutations, standing and seated postures, back bending, arm balancing, and a strong focus on the power of breath awareness. Flow yoga classes tend to be more vigorous and aerobic. All levels welcomed. Tuesday nights class is warm (85 degrees)

Men’s Basic Yoga

This class is designed for our male students in mind, and will provide beginner level instruction in order to build strength, improve flexibility and reduce stress. Men often struggle with tightness, particularly in the hips, hamstrings and shoulders, that can lead to injury. This practice will target those areas so you can move with greater strength and ease.

Warm Gentle Vinyasa

This gentle vinyasa flow is perfect for beginners or anyone looking to unwind and recharge midday! The class will focus on connecting breath and movement, with special attention to proper alignment. The use of a warm room and gentle flowing motions and transitions, help the body become more open; facilitating ease and accessibility into different postures. The warmth will foster a broader range of motion in the body helping newer students, students returning from injury, post natal or advance students into their body in a more gentle manner. Warmth, when applied in a conscious responsible way, enables the body to open and improve circulation of blood and oxygen, reduces stress on all of the systems and allows your joints to bend and move through greater range of motion with less agitation.
